Email : kapilvermajaika@gmail.com
Contact No : 9009798887

Career Objective

Ambitious backend developer versed in following established procedures and working under little or no supervision with 1+ years of hands-on experience efficiently coding websites and applications using modern HTML, CSS, and JavaScript and Node js , React js ,wordpress ,Offering technical expertise in Website and Application Development and Designing.

Career Overview

- Having 1+ experience in website UI development and Backend development.
- I delivered many projects from the scratch level which is fully responsive whether is for desktop or mobile or tablet view.
- Taking the full responsibilities of UI technologies like HTML, CSS, JavaScript, Bootstrap and for backend node js as well.
- Also have a basic level of knowledge in Photoshop for photo editing task.
- I believe in UI design should be neat and clean more over user friendly, intuitive applications and strive to achieve the same. By this way the end user who is not more educated that can also use our website this is main motto.

Role	Full Stack developer
Team Size	8
Technologies Used	Node js HTML, CSS, API integration, Bootstrap, React js , Postgress , graphql

Description:
The system comprises various modules to efficiently manage student and staff activities. The **Dashboard** serves as the central hub, providing an overview of all key functionalities. The **Student Enquiry** module handles initial student inquiries, while **Student Management** ensures smooth operations, including **Promotion/Detention**, **Termination/Active-Inactive** status updates, and assigning essential details like **Section**, **Roll Number**, **House**, and **Subjects**. It also allows for **adding new students** and **editing profiles** when needed.

The **Student** section centralizes all student-related data. Similarly, the **Staff Enquiry** and **Staff Management** modules streamline staff operations, enabling actions like **adding new staff**, **editing profiles**, and managing **Termination/Active-Inactive** statuses. The **Staff** section consolidates all staff information.

Other crucial academic features include **Attendance** tracking, **Syllabus** management, and the generation of **Admit Cards**. The **Time Table** module helps organize schedules, while the **Result** system ensures smooth evaluation and grading, supporting the academic workflow efficiently.
